

CONNECTING PEOPLE AND INFORMATION

Connect Care

Sharing **your**
information
 to improve your care

To provide you with the best care possible, we are improving how health and social care professionals share your information.

Connect Care is a system that allows relevant information about your health and care to be shared securely, which means you will get more timely and efficient care.

For more information on Connect Care visit www.lewishamandgreenwich.nhs.uk/connectcare or phone **020 8836 4592** and the Patient Advice and Liaison Service (PALS) will be happy to help you.
